RDP THE EFFICIENT ALL-ROUNDER

REGAL

THE EFFICIENT ALL-ROUNDER

THE ALTERNATIVE TO CLASSICAL BELT DRIVES

The high-performance RDP fan is a double-inlet, directdrive centrifugal fan with backward curved blades. With a combination of the motor, lightweight aluminium impeller and electronics, it is particularly compact and robust. This makes the RDP the ideal partner where you are looking to replace a fan with a more energy-efficient product, for example.

START SAVING WITH THE RDP:

1) LOW COSTS FOR INSTALLATION AND SETUP

- No further assembly work.
- Plug and Play electronics don't need configuring.

2) LOW OPERATING COSTS

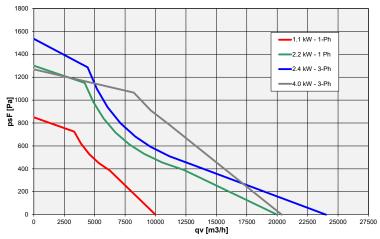

- IE5 EC direct-drive motor.
- No belt losses.
- Streamlined motor installation for optimum aerodynamics.

3) LOW MAINTENANCE COSTS

- The belt does not require maintenance.
- Long-life, maintenance-free bearings.

RDP RANGE - PLANNED EXPANSION OF THE PERFORMANCE ENVELOPE

TECHNICAL FEATURES

- "One-piece" integrated solution.
- Top rating efficiency.
- Plug and play operation.
- No configuration needed.
- Low noise level.
- High reliability.

GENERAL FEATURES

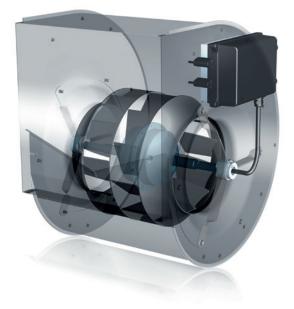

- Sensor-less control.
- Simple installation due to plug and play.
- Complete drive system IP 54.
- Designed for double inlet fans.
- EMC compliant to IEC 61800-3 requirements, class C1 and low harmonics for 1-Ph models, class C2 for 3-Ph models.

INTERFACE

- Analogue interface for speed control.
- Daisy chain connectivity.
- Master-slave function.
- Full MODBUS interface compliancy.

ENERGY SAVING CONCEPT

- New high efficiency permanent magnet motor.
- New compact and streamlined motor design.
- High intensity neodymium magnets.
- No obstruction of intake flow due to the control unit, which is fitted to the side-plate.
- Low aerodynamic losses through intelligent impeller and casing design.

APPLICATION CONSIDERATIONS

The proper selection and application of power transmission products and components, including the related area of product safety, is the responsibility of the customer. Operating and performance requirements and potential associated issues will vary appreciably depending upon the use and application of such products and components. The scope of the technical and application information included in this publication is necessarily limited. Unusual operating environments and conditions, lubrication requirements, loading supports, and other factors can materially affect the application and operating results of the products and components and the customer should carefully review its requirements. Any technical advice or review furnished by Regal Beloit America, Inc. and/or its affiiates ("Regal") with respect to the use of products and components is given in good faith and without charge, and Regal assumes no obligation or liability for the advice given, or results obtained, all such advice and review being given and accepted at customer's risk

For a copy of our Standard Terms and Conditions of Sale, please visit http://www.regalbeloit.com (please see link at bottom of page to "Standard Terms and Conditions of Sale"). These terms and conditions of sale, disclaimers and limitations of liability apply to any person who may buy, acquire or use a Regal product referred to herein, including any person who buys from a licensed distributor of these branded products.
